Professional Work Experience

Full Stack Web Developer | *Swyft* | *Remote*   *July 2021 - Present*

In my current role I am responsible for all things web when it comes to client satisfaction. I work with clients to better market themselves digitally, by building them beautiful, fast, adaptable websites. These sites help to market our client's platform as well as give the consumer easy access to it with focus on usability, accessibility and SEO.

Developer in Residence (TA) | *DigitalCrafts* | *Remote*   *Oct. 2020 - July 2021*

From top student to top Teaching Assistant, I managed an unbound range of duties at DigitalCrafts. I assisted instructors as well as taught major concepts to students both one-on-one and in groups. In my time here I've already helped dozens of students land jobs and learn core development concepts on their path from beginner to professional full stack engineer.
